## Nextrove achieves ISO 27001 certification

Nextrove is proud to share the achievement of ISO 27001 certification!

ISO 27001 is a globally recognized standard that ensures our systems, processes, and policies are designed to protect sensitive information and maintain the trust of our clients and partners.

This significant milestone reflects our commitment to the highest standards of information security management. This underscores our unwavering commitment to information security and demonstrates our dedication to safeguarding our clients’ sensitive data.

By implementing robust security measures and maintaining the highest standards of operational excellence, Nextrove aims to build trust and confidence with every engagement.

Nextrove thanks each and everyone involved in this process and appreciates the talented team for their hard work and commitment in achieving this milestone.

We are excited to continue enhancing our services while prioritizing security and compliance.

### Key Highlights:

- **Robust Information Security Management:** Our processes have been rigorously evaluated and improved to safeguard sensitive information.
- **Continuous Improvement:** This certification reinforces our dedication to ongoing risk management and operational excellence.
- **Client Assurance:** Clients can trust that their data is handled with the utmost care and in compliance with international standards.
